F3C/F3N World Cup Report 2018

In 2018 it was the first time, that we had World Cups in the classes F3C and F3N. This report gives you first some information about the World Cups in F3C and in the second part about the World Cups in F3N.

1. F3C

In total 5 competitions were on the calendar, all 5 competitions were counted. The first competitions was held in Belgium, followed by Italy, Netherlands, United Kingdom and Denmark.

World Cup competitions take place only in Europe.

No protests in any competition are known.

All participants were in possession of a FAI licence.

At all World Cups competitions three P schedules (preliminary) and two F schedules (final) should be flown. This was possible at four of the five competitions. Only in UK because of the bad weather conditions only two rounds of the P schedule could be flown. According to the Sporting Code the two rounds were counted by dropping the lowest score.

Winner

The Winner of the F3C World Cup 2018 is Steve Roberts from United Kingdom.

Conclusion

The F3C World Cup 2018 was very successful. Because of the number of competitions it is the first time that F3C will take part at the World Cup awarding ceremony at the 2019 CIAM Plenary Meeting. The number of pilots rose compared to previous years. This kind of competition is still well accepted by the pilots and this is why we want to continue with F3C World Cups in 2019.

2. F3N

In total 3 competitions were on the calendar, but only 2 competitions were counted. The first competitions was held in Germany, followed by United Kingdom and France. It was a pity, but no information about the F3N World Cup in France were published. This is why the F3CN Subcommittee chairman together with World Cup coordinator decided at the F3N World Cup in UK that the french World Cup will not count to the final result.

World Cup competitions take place only in Europe.

No protests in any competition are known.

All participants were in possession of a FAI licence.

Winner

The Winner of the F3N World Cup 2018 is Eric Weber from Germany.

Conclusion

The F3N World Cup 2018 was successful, but we still have to work on this format of competition. The number of competitions has to increase and such mistakes like the bad organisation of the World Cup in France must not happen again. The number of pilots has also to rise. This is why we want to continue with F3N World Cups in 2019.
