CHIEF JUDGE'S STANDARD REPORT

Competition:	WCIS 2024
Event:	World Cup, European Championships and Asian Championships, Dynamic discipline
Location:	Macau
Date:	16-20 April 2024
Panel of Judges:	CJ: Kristian Moxnes EJ: Jean-Philippe Chatelain Radek Meduna James McCarthy Marcin Sen Gary Crisp
Scoring Equipment Used:	Dynamr
Details of the Judges Work: <i>(including judging statistics)</i>	<p>In total we judged 149 videos (129 in D2W, 20 in D4W). The judges mostly did a good job during the competition, applying the rules and using their experience to give fair scores.</p> <p>One of the judges, however, did not impress me in these regards. This judge will not be selected for any future competitions. His knowledge of the rules was lacking, he was unable to justify his scores, and also poor at judging live.</p> <p>Two teams withdrew due to injury of one competitor, team 711 and 801. Another competitor also got injured, got zero score on one of the rounds, and then got back into the competition (team 803).</p> <p>We had a few official Challenges but the judges' decisions were always confirmed.</p>

<p>Recommendations for Organisers:</p>	<p>Before the competition, there were a few alterations needed. We had no monitor for the challenge procedure, and only one (instead of two) monitor/TV's for the judges' panel. The centerline camera was also not at the correct height. We only had a small monitor to review flights, which made it more difficult to see busts. Reviews should be made on the TV and not on a small PC.</p> <p>Judges also need a printer during the competition close to their location.</p> <p>Judges must be "hidden" from competitors and audience to avoid distractions or interference. We had to ask for black curtains.</p> <p>The reflections on the tunnel were also an issue that we had to try to fix.</p> <p>Christoph Langer was hired by the organisers help with the technical setup. All the issues above were resolved (shortly) before the start of</p>
	<p>the competition, except the possibility to review flights on a large monitor (TV). The possibility to tests the setup had to be delayed till the very start of the competition. David Petracco (Dynamr) was also fully available to fix small issues.</p> <p>During the competition, no room was available for dynamic judges to review the free rounds. We had to find a solution.</p> <p>The Organiser was not well aware of who was CJ/EJ and this created confusion. A meeting should be held to clarify this before the start of the competition.</p> <p>Transportation back to Hong Kong was not organised by the organiser.</p>
<p>Rule Changes – Proposals:</p>	<p>CR changes' will be discussed in the Dynamic Committee.</p> <p>Organisers must be aware of what is needed for a competition so that CJ and EJ do not spend a whole day fixing issues before the competition.</p>
<p>Personal Remarks:</p>	<p>From the competitor's perspective, I believe the competition ran very well, with minimal delays and clear communication from the organising team and officials.</p> <p>During the competition EJ Jean-Philippe was very busy due to operating our judging system Dynamr for both Freestyle and Dynamic, in addition to his responsibilities as an Event Judge: he spent long hours sitting and judging – with no real breaks, which is not reasonable for any judge. I do not see this as a sustainable solution for the future. For the next competition, especially with the addition of Dynamic Solo, this option will not be available.</p> <p>AE committee should have a discussion so that no dynamic judge has to operate the Scoring Equipment (Dynamr).</p>

75th FAI/ISC PLENARY MEETING, 1-2 FEBRUARY 2025, ROME. ITALY
