<i>DATE:</i>	21 January 2025	<i>PAGES:</i>	7

## CP Rule changes proposals for approval ISP Plenary 2025

**Closed course**—If for any reason the Chief Judge (CJ), Event Judge (EJ) or the FAI Controller decides to close the course, an orange smoke canister and/or other suitable indicators will be placed at the beginning of the course or in another appropriate location. The indicator type and location will be described during the pre-event competitors' briefing. [The smoke canisters and other indicators must be of the same type as described and used in the course closing drill.](#)

**AIW**—Additional individual weight that a competitor can carry ~~as determined by the chart in Annex E.~~ [in accordance with Addendum E.](#)

**Body weight**—Competitor including clothing without footwear and without any equipment. Clothing should be the set of clothing used during the competition or similar clothing.

**DWIFE**—~~Normal dressed weight including clothing, footwear, parachute equipment and all other equipment worn on the jump but excluding AIW. See §5.3. "Equipment and Weights".~~

3.4.3 The minimum number of rounds required for a valid event is one round. A valid competition requires a valid event in either Speed, Distance or Zone Accuracy.

[3.4.3. A valid Competition requires a valid round in each of Speed, Distance and Zone Accuracy.](#)

[Clarification of the intent of the rule.](#)

3.4.4 The competition will run for a maximum of ~~six~~ seven days, D1 OPP, D2 OPP and Opening Ceremony, D3 + D4 + D5 + D6 Competition days, D7 Competition day and Closing Ceremony.

[3.4.4. The event will run for not less than five days and a maximum of seven days, D1 OPP, D2 OPP and Opening Ceremony, D3 + D4 + D5 \(+ D6, +D7\) Competition days and Closing Ceremony.](#)

[Clarifying the competition duration](#)

3.4.5 After the start of the first round of a competition, any jumps that are not exclusively part of that competition are not permitted until that competition has been completed. In an instance where a Canopy Piloting Classic Competition and Canopy Piloting Freestyle competition are held within the same event, training jumps for the competition not yet started may only take place upon completion of the first competition along with permission of both the MD and CJ.

Indoor skydiving is allowed during Canopy Piloting competitions.

3.4.5 After the start of the first round of a competition, and until that competition has been completed, competition type jumps other than the competition jumps themselves are not permitted. In an instance where a Canopy Piloting Classic Competition and Canopy Piloting Freestyle competition are held within the same event, and with the permission from the MD, CJ and FAI Controller, training jumps for the competition not yet started may only take place upon the completion of the competition that has been started.

Indoor skydiving is allowed during Canopy Piloting competitions.

Improved wording

4.2.5 Full Drag Distance: To navigate a parachute as far as possible from the entry gate by dragging water at or before the leading edge of G1, touching water in each of WZ1 to WZ5, flying through G7 (positioned 20m after the end of WZ5), and landing within the boundaries of the course. See §6.1 and §6.5 for additional requirements regarding scoring.

~~5.3.3 At the time of the weighing carried out by the Chief Judge, or a person designated by the CJ, DWIPE is calculated and recorded. DWIPE is the basis to define the maximum amount of additional individual weight allowed in accordance with the list in Annex E.~~

5.3.3. During the registration period of the competition the competitors will determine the body weight (including clothing without shoes and without any equipment. Clothing should be the set of clothing used during the competition or similar clothing). This weight will be the base of the allowed exit weight of the competitor in accordance with Addendum E for the competition.

5.3.3.1. In case the body weight of the competitor changed by more than 2 kg, the competitor may request a reweigh and the new weight is used as base of the allowed exit weight of the competitor in accordance with Addendum E for the remaining of the competition.

5.3.3.2. In case that a competitor cannot manage the exit weight in accordance with Addendum E an inspection of the equipment may be done by the CJ to determine that the equipment does not contain any additional or unsafe weights. In this case the exit weight is the shown exit weight as demonstrated during registration.

~~5.3.4 A deviation of one kilogram on DWIPE measured in 5.3.3 will be allowed. This deviation is allowed to cover discrepancies between different scales used or a competitor being wet if weighed after the jump. (The 1 Kg deviation is subtracted from the measured weight to give the competitor potentially more extra weight according to Annex E).~~

5.3.4. A weight check after a jump (in accordance with 5.3.7.) the competitors exit weight will be determined and compared with the registered maximum exit weight recorded in accordance with 5.3.3. One (1.0) kg deviation is subtracted from the competitors exit weight is allowed to accommodate for wet equipment. If the exit weight is exceeding the allowed exit weight a MR will be awarded for the round affected.

To accommodate the changes to the weighing procedure and table in Annex E

5.4.2 The organiser must provide the opportunity for practice jumps for the competitors on the event courses during the OPP. The schedule and details of the different event courses must be agreed by the CJ and the Meet Director and be announced at the beginning of each day so that competitors and judges may take advantage of the training period. Only the announced event may be trained in the announced times. Free time frames may also be announced for competitors to train any event of their choice.

~~5.4.2 The organiser must provide the opportunity to do practice jumps for all events during the OPP The schedule and details of the different event courses must be agreed by the CJ and the Meet Director and be announced at the beginning of each day so that competitors and judges may take advantage of the training period. Only the announced event may be trained in the announced times. Free time frames may also be announced for competitors to train any event of their choice.~~

6.1.4.4 Exceeding the AIW exit weight allowed as per Annex E

6.5.3 Off-course landing (OC) applies. Vertical extension (VE) will be applied at G5 at 50 metres.

6.5.3 Penalties applies at Drag Distance 50m:

6.5.3.1 Off-course landing (OC) applies

6.5.3.2 Vertical extension (VE) and Out-flying (OF) will be applied at G5 at 50 metres.

To clarify flying around G5 is not allowed since VE may not be judgable behind the judge/camera/sensor

7.1.3.1 The Organiser must provide and assign four (4) additional persons to assist the judges during the competition. They should preferably have at least local CP judge ratings. If any of these persons are not a CP judge, they should be vetted before being accepted for the position. These persons must be made available to and approved by the CJ, no later than the day before the OPP starts.

7.1.3.1 The Organiser must provide and assign two (2) additional persons to assist the judges during the competition. At least one of these helpers must be able to set up and operate the video judging system. They should preferably have at least a local CP judge rating. If any of these persons are not a CP judge, they should be vetted before being accepted for the position. These persons must be made available for and approved by the CJ, no later than the day before the OPP starts.

Additional duties for the additional persons. The number has also been reduced from 4 to 2 additional persons due to the increase in judges

8.1.5 After the competition, the camera operator is responsible for submitting the relevant competition videos to the relevant persons, as per Sporting Code : Section 5.

Defining who is responsible for submitting the competition videos to the relevant persons.

~~9.3.5 National CP Team Champion: 1st Place, 2nd Place, 3rd Place~~

## Annex A

A.2 All courses must be 10 metres wide over the total length of the course.

A.2 All courses must be 10 metres wide (+- 20cm) as measured between the insides of the upright section of the marker, ignoring the base, over the total length of the course.

Clarity and intention of standardisation of a course.

B.1.7 After the G5 a sufficient amount of landing area must be available to allow for safe landings. The size of the landing area must be acceptable to the CJ.

B.1.7 After the G5 a sufficient amount of landing area must be available to allow for safe landings. The size of the landing area must be acceptable to the CJ, FAI Controller and safety panel.

A larger landing area is needed at the end of the speed course due to higher speeds of the canopies. TCD and FAI Controller added, as this is a potential safety issue.

## WEIGHING PROCEDURE:

At the time of the Weight check:

1. The competitor's DWIPE less one kilogram allowed for discrepancies is determined.
2. The DWIPE obtained in 1 above is used to determine the AIW allowed per the list in Annexe E.
3. The competitor's AIW is weighed and compared to the AIW determined in 2 above.
4. If the AIW determined in 3 above is more than the AIW determined in 2 above, a MR will be recorded for that round.

At registration: Determine the Body weight (without footwear and without equipment, only with normal clothing for jumping)

For the competition: Competitor monitors the exit weight before boarding and adjust to remain within the limit determined

At weight check (after the jump): Judge verify, the exit weight was within the determined limit (1kg - to be subtracted from the actual weight - tolerance allowed for example for wet equipment)

Make it fairer and easier to control weights that competitors may wear.
