2.5 Location of Event

TongPing General Airport, Ji'an, Jiangxi, China. This airport is also the place where 2023 National Championship was held, as shown in the two pictures below.

Ji'an is in the south of China located in the middle of Jiangxi province. In the early years of Yuan Dynasty, it was named Ji'an, which means the state is auspicious and people live in peace, which is still in use today. Covering an area of 25,300 square kilometers and with a population of 4.7 million.

The coming period is a stage of historical significance for Ji'an to accelerate its development. It conscientiously implements the scientific concept of development and strategic thinking of the construction of a socialist harmonious society. It firmly seizes the development opportunity, unshakably implements the main strategy of grand opening to establish closer links with Pan-Pearl River Delta and other coastal areas, aiming to promote deeper cooperation and exchanges in more fields and common prosperity and development.

The construction of transportation infrastructure will be accelerated to build a comprehensive regional transportation junction. Comprehensive energy development will be quickened to build an energy base. Urban construction of each central city area and towns and counties will be accelerated to form a group of highly urbanized cities in the middle of Jiangxi province featuring enterprise-friendly and livable cities with sound ecological environment.

Directed by China's latest general aviation policies, with continuous focus on the field of aero sports, the local government of Ji'an is willing and prepared to be the host of this event. TongPing General Airport, the place where the event will be held is built under the requirement of civil airport 2B standard and started service since Oct, 2015. The whole airport is 1000 acres with a 800m length 30m width runway and perimeter enclosed and secured. Approved by civil and military aviation, the airport has an stable airspace and fine taking off and landing environment. The service systems of the airport are also well equipped. Local police, medical, emergency services are also well cooperated. With all the conditions mentioned, we believe that we can leave the world's skydivers a fabulous event in 2025.
