Details of the Judges Work: <i>(including judging statistics)</i>	VFS 6 teams, FS Open 21 teams, FS Female 9 Teams, total 362 flights judged FS Female, had a fly off to determine the 2 nd & 3 rd place No re-performance flights provided 3 Judging panels (1 EJ & 3 panel judges) All judges performed their duties to a high standard, were willing to listen and learn from each other. Everyone worked well together as a team and conducted themselves in a professional manner.
Recommendations for Organisers:	The organisers were accommodating and pro-active. There were questions raised by VFS competitors as to why the bottom camera was on an angle. We discussed the option of using the top camera. My recommendation would be to explore a net camera if a camera can not be mounted in a central position under the tunnel. I would recommend the flyers have the opportunity to fly in the tunnel in the same conditions as they would during competition. The VFS flyers had significantly different lighting conditions during training flights compared to competition flights.
