

75th FAI/ISC PLENARY MEETING, 1-2 FEBRUARY 2025, ROME. ITALY

<i>SUBJECT:</i>	ISC Rules and Regulations Committee Annual Report 2024	<i>AGENDA #</i>	21
<i>AUTHOR:</i>	Mr. Ronald Overdijk, Chair, Rules and Regulations Committee		
<i>DATE:</i>	21 November 2024	<i>PAGES:</i>	1

**International Skydiving Commission
Rules & Regulations Committee
Annual Report 2024**

In 2024 we received some input during the year with – per usual – most of it during the last weeks before the deadline. Regardless, with hard work the committee managed to draft a document with proposal in due time.

Some items follow out of items that pop-up during the year which lead to discussions and in the end proposals for rule changes. The majority of the proposals are related to SC5, following out of issues which happened at FCE's. Others come directly from NAC's (e.g. this year from Italy and Romania), one from the Technical & Safety Committee and now several from the ISC President, regarding the Internal Regulations.

A substantial part of SC5 proposals follow out of the big clean-up of all ISC records. This monumental task was carried out over several months, with input from all competition committees, by Gernot and Christine Rousson at FAI head-office. Words fail to express what has been achieved here. A mighty big hands to them both! And, just take a look at <https://fai.org/page/isc-ratified-records>

Discussion is still needed around the subject of organizing an ISC Plenary Meeting, regarding the registration possibilities and costs.

As committee we are a bit hesitant to take a stand on the proposals coming from competition committees. They are the experts in their field. Even so, R&R is willing to advise on proposals, looking for implications or possible inconsistencies. But the final call is on the committee and Plenary.

My thanks for this year go to my R&R colleagues for their work and contributions: Gernot Rittenschober, Richard "Buzz" Bennett, Claire King, Liam McNulty, Elisabet Mikaelson and Craig Poxon. Both Liam and Elisabet have indicated they will step down. I truly believe their work in the past years was valuable and wish both of them the best with their future plans.

Ronald Overdijk
Chair R&R Committee
