Teams that are registered and have paid full Entry Fee can book time at and of three Flyspot Indoor Skydiving main locations (Warsaw, Katowice, Gdańsk) prior to the event at a reduced rate.

All team members must be present and flying. During the registered training period, flying time will be reserved for teams to train. Flight time could be limited per team to give every team a

chance to fly during these dates.

This rate is a current training time rate. It is subject to change should any unforeseen events such as for example changes to the ISC rules (Plenary 2025, 2026), inflation, war or a pandemic happen.

Teams that are registered and have paid a full entry fee can book time prior to the event at 650€ VAT incl per hour. All team members must be present and flying.

Organiser reserves the right to award the Official Speed Setting Flight to any team training in Warsaw tunnel prior to the official training day. In such case, the team will be excluded from the speed setting schedule during the official practice day.

Late registration may be accepted if capacity allows.

2.13 Facilities

Flyspot has successfully run 2nd FAI World Cup of Indoor Skydiving in 2016. We would like to take the opportunity to repeat this successful competition.

Flyspot building includes number of rooms that will be used as Judging area and livestream team. The area around the chamber will have enough space for live judging and public.

Flyspot has large parking space allowing for large tent and creation of food court and rest area. In addition, the ground floor of hotel Ibis Styles Warszawa West located only 50 metres from the tunnel will be used. The large ground floor conference facility will be used as competitor rest and briefing area.

2.14 Wind Tunnel details

- The tunnel is ISG recirculating wind tunnel built in 2014, by Indoor Skydiving Germany GmbH
- Maximum speed: 320 km / h
- The octagonal flight chamber measures 4.2 meters in diameter and 17 meters in height. The glass part is 4.5 meters high.
- Thanks to the reinforced concrete structure, the tunnel achieves enormous power and at the same time remains silent, and the air flows are laminar
- The patented tunnel cooling system based on air exchangers allows us to work continuously regardless of external conditions and gives us full control over the temperature in the tunnel to ensure fully comfortable conditions for competitors
- Tunnel could operate 24/7 if needed without overheating

Flyspot can offer pre-competition training starting from the 15 of February 2026 in any of the 3 tunnels – Warsaw, Katowice and Gdańsk. All three tunnels have almost identical specification. More details will be shared in Bulletin 1.

Cameras:

All current cameras comply with the technical requirements in the ISC Competition Rules and are constantly used during the competitions. All cameras will be set up to output to screens for the judging panels.

For dynamic competitors – details schedule of tunnels availability for training purposes will be published in Bulletin 1.

2.15 Pre-event training

Flyspot will offer a favorable rate to all teams for pre-event training. Once a team has registered and paid the full entry fee, the rate offered to competitors will be 650€/h VAT inclusive. All members of the team must be present and flying during the pre-event training.
