IPC President Girardin called to order the 57th Plenary meeting of the IPC at 1000 hours, Saturday, 28 January 2006, at the Scandic Hotel, Stockholm, Sweden, and introduced Swedish Aero Club president John Grubbström, who addressed the Plenary and welcomed the delegates.

President Girardin conducted the roll call of Delegates, including apologies for absentees, approval of proxies, and, verification of Delegate's authority. Roll call showed that 24 delegates were present (**ANNEX A**) and the following four proxies were recognized:
Bulgaria to Poland
Estonia to Finland
Lithuania to Sweden
Slovak Republic to Czech Republic

The Delegates' address list was circulated for its annual update, and will be posted on the IPC website.

2. CONFIRMATION OF MINUTES

Minutes of the 56th IPC Plenary meeting held in Jachranka (near Warsaw), Poland, 29-30 January 2005, were approved and have been published on the FAI/IPC website.

3. 98th FAI GENERAL CONFERENCE - FAI ACTIVITIES REPORT

FAI representative Jean-Marc Badan presented an overview of FAI's activities in 2005, the results of the 98th FAI General Conference held in Paris, France, 11 October 2005, and FAI's plans for 2006. Mr. Badan, attending his first IPC commission meeting, said that the WAG concept will be further developed and the FAI is looking at ways to raise funds.

4. PRESIDENT'S ADDRESS

4.1 President's Report

President Girardin's report was included in the agenda and provided opinions on the World Games, the Olympic games and the many first category events conducted in 2005. Now that the IPC's Olympic dream is over, the IPC must consider whether involvement in the World Games is worthwhile or even financially viable.

4.2 Decisions by the Bureau

President Girardin reported on the IPC Bureau's interim work during 2005, a list of which was included in the Agenda. One decision made by the bureau on 9/28/05 was omitted from the list, a request from CF committee chair Marylou Laughlin for a definition of team make-up during the 2005 World Cup of Canopy Piloting. Additionally, at the IPC bureau meeting before the full plenary met, the bureau decided to act on the request from Ms. Ziara Abud, a

Brazilian citizen, who needed the FAI to issue her a sporting license so she could participate with the World Team attempting to establish a new large formation world record in Thailand. The interim actions were approved by the Plenary.

4.3 Mission Plan

President Girardin reported on the status of the IPC Mission Plan and its development, which was included in the Agenda. Topics of the report, and proposed team leaders where appropriate, included:

- Long term IPC goals are to be maintained as long as the WAGs and WGs remain – team leader Graeme Windsor gave a report.
- The mondial structure is to be maintained, with the concept developing into the World Parachuting Championships – team leader President Girardin.
- Synchronization is not longer a task but a responsibility of each committee chair.
- Event development is to be maintained, with a review of the world cup format in an effort to find private organizers, and to integrate continental championships as well as parallel structures such as Asiana – team leader Rainer *Exi* Hoenle.
- IPC needs to manage its own website – team leader Susan Dixon.
- Image capture and handling is to be abandoned, in that technical development is so fast that it is not a worthy investment at such a small scale.
- Sport scoring and vision is important to presentation and is to be maintained; it must become standardized for use in judging and scoring and must be included in the organizer agreements – team leaders Graeme Windsor and President Girardin.
- The financial plan is to be maintained, with the goal of identifying potential sources of income, and the creation of a portfolio – team leader Richard *Buzz* Bennett.
- Archiving on the FAI website has now been assumed by the FAI headquarters.

Norwegian delegate, Pål Bergan, asked that the mission plan on the IPC website be updated to reflect IPC's current thinking.

5. WORLD GAMES

Dr. Rainer *Exi* Hoenle, IPC Technical Director for the World Games 2005, briefed the Plenary on the success of the IWGA's 6th World Games, which were conducted in Duisburg, Germany, in July 2005. Parachuting was the only air sports represented in three consecutive WGs and will be the only one in Taipei in 2009. Although it appears skydiving enjoyed great success in the 2005 event, some questions remain. In 2005, landing accuracy, formation skydiving, and freestyle could have been conducted in the large arena with several thousand spectators, but the three events were moved to the canopy piloting site some distance from the arena where the infrastructure existed to conduct the event. Some issues that should be considered by the Plenary:

- Does IPC continue its involvement in the World Games?
- Should skydiving events be in the main spectator arena, even if some disciplines not capable of being conducted in the main spectator event have to be canceled or replaced? Or,
- Should all skydiving events be held at the same location even if retaining some disciplines requires moving away from the main spectator arena? Or,
- Should freestyle be replaced with 2-way canopy formation?

President Girardin ask the plenary a decision to continue or not its involvement in the World Games. By majority, the motion to continue was accepted. The plenary empower the bureau to define a better program including or not the change between freestyle and CF 2way. A motion to nominate Dr. Rainer *Exi* Hoenle as the IPC Technical Director for the World Games 2009 passed unanimously.

6. WORLD AIR GAMES

FAI representative Jean-Marc Badan briefed the Plenary on the future of the WAG. They remain a priority for the present FAI executive board. IPC will consider its participation once a final plan is developed.

7. GENERAL ISSUES

Several issues were discussed during the open meeting and the following were presented by President Girardin:

- IPC meeting organizer's agreement: a motion to accept the draft in the agenda with the exception that the deposit amount did not apply was approved. Then a motion to require a deposit of €500, to be effective immediately except for Italy '07 bid and France '08 bid, was approved.
- Right of representation for performance records: a motion to allow the bureau to provide proposal to CASI was approved.
- Continental records: Jean-Marc relayed FAI Secretary General Max Bishop's opinion that FAI headquarters does not support the proposal. The proposal to create a continental records program was approved by the Plenary. ASOs will manage the program and the fee for each record is €50 for three or fewer participants and €100 for four or more participants. The basic program concept was approved with the introduction of the SC5 changes later in the minutes.
- IPC web page webmaster: a task force was appointed and includes Ronald Overdijk, Patrice Girardin, Susan Dixon, and Thomas Tuominen. A motion to approve the TF's contracting with an organization/firm/federation to manage the website was approved.
- IPC/FAI relationship: French delegate Gillian Winter proposed to discuss the issue, which required 2/3-majority vote to discuss because it was not in the agenda and the motion was approved. France discussed term of office for bureau members. Ms. Winter proposed language to amend the FAI by-laws so each commission would be responsible for deciding the length of office for each bureau member, rather than have it annually. A motion to empower the bureau to submit the amendment to the CASI was approved.
