Venue set up:	Very nice venue set up and ready during Official Training Day Aug 28 th . Operations moved to competition venue when the competition started Aug 29 th .

Exception for one judge and the FAI controller who were travelling with dogs and stayed in dog-friendly hotels in Twello and Deventer.
Opening And Closing Ceremonies:	According to protocol. Due to the weather forecast Opening Ceremony was held at the competition venue. Closing Ceremony including prize giving and banquet was held at a suitable location in walking distance from the competition venue.
Conduct of the event:	The event was very well conducted and all competition rounds completed.
Comments to Officials, Meet Director Judges, Jury	Well done.
Recommendations for the Organisers:	The Organisers did a very good job. One recommendation only: At the last day the Meet Director wanted to reduce the time on the ground between jumps to be able to finish all competition rounds. This turned out very well, but at first some Delegations were not happy with the way the Meet Director brought this up. For future competitions – if the weather forecast is bad -it could be an idea to address this at the Team captains meetings that are held after the Opening Ceremony.
Rule Changes – Proposals and considerations:	No comments.
Personal Remarks and any other topics:	I want to thank the Organisers and Skydive Teuge for their hospitality and a very well conducted competition.

In accordance with the Sporting Code Section 5, 4.1.1.2 this form is to be completed and sent to the ISC Bureau within 30 days of the competition's completion.
